

# Lorieu

IGP PAYS D'OC ROSÉ

## History

Lorieu, little river in Occitan, evokes calm and serenity. A wine created by an enthusiastic group of winegrowers for who organic agriculture is more than just a philosophy.

## Vineyard

The plots planted on limestone and clay soils have been selected on the Pyrenean and Mediterranean sectors of our vineyard.

## Vinification

After direct pressing of each variety, the settling of the lees and fermentation at low temperatures have enabled us to preserve the body and aromatic quality of this vintage.

## Tasting notes

The terroir and slopes of the vineyards have enabled us to create this refined rosé, fresh and elegant in style, revealing crisp scents of red berry fruit. Best served between 8 and 10 °C.

## Food pairing

Lorieu rosé will be ideal as an aperitif, to accompany tapas or to share with friends and savour with grilled meats.
